National Youth Violence Prevention Week March 23-27, 2015

The goal of National Youth Violence Prevention Week is to raise awareness of effective ways to prevent or reduce youth violence.

YOUTH VIOLENCE FACTS

- Youth violence is widespread in the United States (U.S.). It is the third leading cause of death for young people between the ages of 15 and 24.
- In 2012, 4,787 young people aged 10 to 24 years were victims of homicide—an average of 13 each day.
- Over 599,000 young people aged 10 to 24 years had physical assault injuries treated in U.S. emergency departments—an average of 1642 each day.
- In a 2013 nationwide survey, about 24.7% of high school students reported being in a physical fight in the 12 months before the survey.
- About 17.9% of high school students in 2013 reported taking a weapon to school in the 30 days before the survey.
- In 2013, 19.6% of high school students reported being bullied on school property and 14.8% reported being bullied electronically.
- Each year, youth homicides and assault-related injuries result in an estimated \$16 billion in combined medical and work loss costs.
